SENTO FIXED FABRIC ROOF

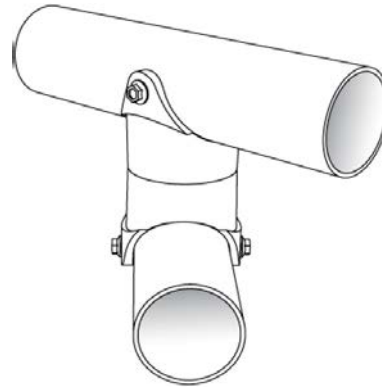

Free standing system: max 6m in width by 20m length

Quick and easy assembly

Simple roof mounting brackets

Universal and slim connecting points

- crossing pipes are joined together permanently, without welding or use of any special tools
- High fabric tension ensures rapid rainwater drainage
- can be wall-mounted, roof-mounted or freestanding on posts
- The tension of the membrane cover is not transmitted to the mounting points, instead being contained within the frame itself
- Adoptive design to suit any type of existing structures or framing
- The Triax system is so adaptable, difficult site restrictions can be overcome and minor design modifications can be adopted if and when they occur
- Simple and proven installation system

System size restrictions

	min. 2m
	max. +++
	min. 1.5m
	max. +++
