DICKSON[®]

the art of weaving by Dickson[®]

Dickson : a history of expertise

Building on more than 200 years of expertise, Dickson® is an established player on the woven fabric market.

Thanks to the know-how of its employees, Dickson continues to be the benchmark for technical textiles. Having made innovation a keystone of its philosophy, it always adapts to the latest market trends.

Dickson is recognised the world over for the quality of its canvases, which are composed of millions of interwoven and intertwined threads.

ESSENTIAL

“

95 colours to express your creativity. Available in 95 hues, from trendy solids to more contemporary stripes, Dickson offers the widest range on the market.

Divided into six colour groups, our wide fabric selection allows you to match or fully contrast exteriors with interior décors.

A range of colours for even the boldest of designs. ”

JACQUARDS

“

The jacquard fabrics provide an insight into the skill and expertise offered by Dickson: its in-house design team monitors the latest trends to create these graphic fabrics in pastel and powdered hues.

Its Brush and Constellation fabrics reflect nearly 200 years of yarn and weaving proficiency.

Much more than patterns, they bear witness both to its manual and machine work, and weaving effects developed especially to appeal to our senses.”

Tip

Up or down ?

Because our Jacquard designs are based on a double interplay of colours, your fabric takes on a different aspect depending on whether you are above or below it.

PROFES- SIONAL

The professional collection by Dickson® is designed to meet specific sun protection needs. Dickson has developed a fabric with unique properties.

With Orchestra Max, Dickson provides an effective solution for professionals and private customers whose fabric is expected to be exposed to climatic variations and pollution. ”

Easy to clean

The technology used in the development of the **self-cleaning finish** is based on the observation of the structure of a Lotus leaf, which, despite its development in muddy rivers and lakes, manages to keep clean. The microscopic structure of the plant surface, covered with numerous superhydrophobic small bumps of the order of several microns, allows its leaves never to be wet.

Instead, the drops of water keep rolling on the surface of the leaf, carrying with them debris, insects and dust. Therefore, the **self-cleaning finish** contains molecules that, once applied on the fabric, assemble to form **an extremely dense protective layer that keeps dirt on the surface**. Rain or simple rinsing is sufficient to clean the fabric.

Water-resistant

Orchestra Max fabric is coated on one side with a UV-resistant acrylic resin, reinforcing its water-resistant properties. It enables its users to take advantage of their terrace all year round, without having to take in the awning at the first sign of rain.

Orchestra Max is particularly suitable for permanent installations with high exposure to climate changes and pollution.

It is designed primarily for retail, hotels and restaurants. It is also a state-of-the-art solution for particularly demanding home owners.

Dickson quality Guarantee

Colours that last

The solution-dyed yarn used to produce our fabrics offers long-lasting resistance to UV rays and weather conditions. Even when exposed to strong sunlight, they retain their dazzling colours... for a very long time.

10-year fabric warranty

Its high-performance fibres, treatments and weaving processes allow Dickson to guarantee some of its fabrics for up to 10 years.

French made

Building on its unique expertise, Dickson produces all of its fabrics in Wasquehal in northern France (59).

Visual and thermal comfort

Dickson® fabric reduces glare and heat by up to 95% to eliminate the greenhouse effect, keep your interiors feeling fresh and, depending on the colour, block 90% to 100% of UV rays.

Easy to maintain

CLEANGARD® water- and dirt-resistant finish ensures each of our fabrics is highly resistant to stains, grease and water.

Low maintenance guaranteed!

Textiles that protect people and the planet

Awarded the OEKO-TEX label (class II, products in direct contact with the skin), Dickson fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.
