

# CANOPY AWNINGS

Dutch Hood | Bow | French | Wedge | Convex | Walkway

////// Charming and versatile

Popular for storefronts and mid-century homes, **Canopy Awnings** are custom made by Outdoor Blinds and Awnings for each unique project. Canopy Awnings provide rain, sun and weather protection to any doorways, walkways and windows while adding a touch of class and structural projection to the aesthetics of your home or business.

# CANOPY AWNINGS

## Charming and versatile

Our custom-made **Canopy Awnings** are an ideal solution for balconies, windows, doorways and walkways where style and design are desired while cover is required. The frame is built from extruded aluminium and is resistant to rust and cracking, making this product extremely hard wearing. Each canopy is fully customised for individual needs and come in many shapes and configurations including: Dutch Hood, Bow, French, Wedge, Convex and Walkway.

Custom made to suit your project. Choose from over 100 premium Dulux and Interpon powder-coating colours

### MANUFACTURED IN SYDNEY

Locally made to ensure quality every step of the way

## Canopy Awnings Styles

### DUTCH HOOD

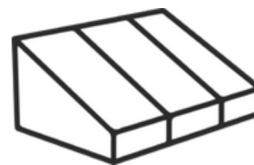

Originated in the Netherlands, the Dutch Hood Canopy Awning style became popular with store owners to enhance their window front and entice customers. Our canopy awnings can be fixed or retractable with a fold-up option and are an ideal way to make your home or business exterior pop.

### BOW/FLORENTINE

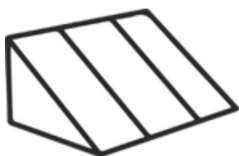

Add a touch of European style and make a statement of your doorways and windows with Bow Canopy Awnings. Also known as Florentine canopy Awnings, they have a long, rounded shape and can be made with a fixed frame structure or with a fold-up frame.

### FRENCH

Right-angled and triangular in shape, French Canopy Awning are ideal for covering doorways and windows to dramatically change the style of the facade. Constructed with extruded aluminium frames or steel tube frames that allow special shaping, French Canopy Awnings are popular with cafes and restaurant doorways to provide protection from the elements and adding stylish first impression.

### WEDGE

Wedge Canopy Awnings offer a square, sleek style that provides a slimline look for any doorway or window. Constructed with welded aluminium frames, wedge canopy awnings are great for providing all-year shading and rain protection of the doorway or shopfront.

### CONVEX/BULLNOSE

Convex, or Bullnose, canopy awnings offer a traditional bullnose look with straight lines and a rounded front. Variations on the radius can be achieved to alter the shape right down to a bullnose if required.

### WALKWAY

With its unique cylindrical shape and a semi-circle front face, Walkway Canopy Awnings are designed specifically for entrances to buildings and homes to protect from the elements while giving them that wow factor.
