

SCREENTEX WIRE OUTDOOR BLINDS

ENJOY OUTDOOR LIVING ALL YEAR AROUND

Engineered with the latest technology, the *ScreenTex Wire Guide Outdoor Blinds* system combines elegance with durability, offering a **sleek and reliable shading solution** for modern living. Minimal yet robust, it is designed to perform while enhancing the aesthetics of any home or commercial project.

The system features a **sealed headbox** that protects both the fabric and base bar from the elements, ensuring **long-lasting performance** and a clean, streamlined look. Equipped with **3.2mm stainless steel side cables**, the *Wire Guide* system allows the blinds to be lowered and retracted securely and safely in strong wind conditions. The result is a solution that is stable, smooth, and whisper-quiet in operation.

Perfect for windows, balconies, and terraces, *ScreenTex Wire Guide Outdoor Blinds* deliver year-round comfort, **reducing glare and heat** while maintaining a modern architectural appeal.

SCREENTEX WIRE

OUTDOOR BLINDS

Shade control at its best

CUSTOM MADE

Manufactured to the exact size to fit your project with a choice of premium Dulux and Interpon powder-coating colours for the frame as well as over 200 variations of premium quality of 100% solution dyed acrylic and mesh fabrics.

EUROPEAN QUALITY

Unique combination of European design and Australian made quality. Designed and engineered in Europe, manufactured in Australia with rigorous quality control of all processes from initial customer consultation to manufacturing, installation and post-service.

SYDNEY MANUFACTURED

Locally made to ensure quality every step of the way

COMFORT, AESTHETICS & EASE OF USE

Create stunning, linear effects with seamless integration for both commercial and residential dwellings. ScreenTex is the most premium external blinds system available across the Australian market.

ENERGY SAVING

Manufactured with the state-of-the-art fabrics from leading providers such as Serge Ferrari and Dickson. The fabrics are able to reduce glare and heat by up to 70% which in turn eliminates the greenhouse effect, keeps your interiors feeling fresh and, depending on the colour of the fabric, block 90% to 100% of UV rays.

AUTOMATION OPTIONS

Available automation options include hardwire to a wall switch panel or a remote control; wide range of Automation sensors such as wind or wind/sun sensors, motion sensors and rain sensors that easily integrate with existing or new Smart Home Automation Systems for convenient voice control commands.
