

SCREENTEX ZIP OUTDOOR BLINDS

ENJOY OUTDOOR LIVING ALL YEAR AROUND

Developed with the latest in engineering innovation, the *ScreenTex Zip Outdoor Blinds* system is the ultimate blend of **strength, elegance, and performance**. Minimal and modern in design, this robust system enhances both residential and commercial spaces while delivering complete protection and year-round comfort.

The streamlined **headbox conceals and protects the fabric** and base bar, preserving a sleek appearance and ensuring long-lasting durability. Featuring **slim side tracks** and a minimalist profile, the *ScreenTex Zip* integrates seamlessly with any architectural style.

Engineered for performance, the **innovative spring-activated system** keeps the **fabric perfectly tensioned on all four sides** at every stop position. This ensures a **consistently flat finish**, added stability in light winds, and superior resistance to the elements.

More than just blinds, the *ScreenTex Zip* system creates a **fully enclosed outdoor room** — shielding against UV rays, glare, insects, wind, and light rain. Recognised as one of the **strongest outdoor blinds systems** on the market, it is the ideal solution for transforming patios, balconies, and alfresco areas into functional living spaces, all year round.

SCREENTEX ZIP

OUTDOOR BLINDS

The ultimate track system

CUSTOM MADE

Manufactured to the exact size to fit your project with a choice of premium Dulux and Interpon powder-coating colours for the frame as well as over 200 variations of premium quality of 100% solution dyed acrylic and mesh fabrics.

EUROPEAN QUALITY

Unique combination of European design and Australian made quality. Designed and engineered in Europe, manufactured in Australia with rigorous quality control of all processes from initial customer consultation to manufacturing, installation and post-service.

SYDNEY MANUFACTURED

Locally made to ensure quality every step of the way

COMFORT, AESTHETICS & EASE OF USE

Create stunning, linear effects with seamless integration for both commercial and residential dwellings. ScreenTex is the most premium external blinds system available across the Australian market.

ENERGY SAVING

Manufactured with the state-of-the-art fabrics from leading providers such as Serge Ferrari and Dickson. The fabrics are able to reduce glare and heat by up to 70% which in turn eliminates the greenhouse effect, keeps your interiors feeling fresh and, depending on the colour of the fabric, block 90% to 100% of UV rays.

AUTOMATION OPTIONS

Available automation options include hardwire to a wall switch panel or a remote control; wide range of Automation sensors such as wind or wind/sun sensors, motion sensors and rain sensors that easily integrate with existing or new Smart Home Automation Systems for convenient voice control commands.

CONSTRUCTION

Fully Enclosed Powdercoated Extruded Aluminium Head Box, Side Rail & Bottom Rail

SYSTEM SIZE

Up to 15m² mesh/acrylic
Up to 12m² (PVC/canvas)

VERSATILE HEADBOX

130mm x 150mm pelmet
