

RETRACTA ROOF

SEAMLESS COMFORT, PANEL BY PANEL

Transform your indoor-outdoor living with the Retractable Roof, a fully motorised retractable roofing system that delivers effortless control over sunlight, shade, and weather protection. At the touch of a button, the roof panels glide smoothly, stacking neatly at the base to open your space to the sky.

Perfect for patios, pergolas, and poolside retreats, the Retractable Roof combines modern engineering with elegant design — redefining outdoor living with style, comfort, and convenience.

RETRACTA ROOF

Seamless comfort, panel by panel

CONSTRUCTION

Powder coated extruded aluminium with crystal-clear glass, durable polycarbonate, or insulated solid panels

MAXIMUM PROJECTION

5,800 mm from a wall

INCLINE

Minimum 6° fall (105 mm per metre)

PROJECTION SIZE

Panel count per bay determined by projection

BAY SIZE

Polycarbonate: up to 3,000 mm between rafters
Glass: up to 2,000 mm between rafters

ROBUST DRIVE SYSTEM

Utilises concealed heavy-duty zinc-coated steel chains hidden inside rafters and roller-bearing mechanisms for strength and reliability

INSTALLATION

Facade walls, above roofline, fascia mount

WATERPROOF

High performing in all weather conditions.

CUSTOM MADE

Choice of premium Dulux and Interpon powder-coating colours in the size specific to your project

SYDNEY MANUFACTURED

Locally made to ensure quality every step of the way

BUILT TO LAST

Built for long-term performance in Australian weather

COMFORT, AESTHETICS & EASE OF USE

Offers superb sun and rain protection with seamless integration

OPERATION OPTIONS

Motorised

AUTOMATION OPTIONS

Available automation options include hardwire to a wall switch panel or a remote control; wide range of Automation sensors such as wind or wind/sun sensors, motion sensors and rain sensors that easily integrate with existing or new Smart Home Automation Systems for convenient voice control commands.
